BY APPOINTMENT TO
H.R.H. THE PRINCE OF WALES
MANUFACTURER AND DISTRIBUTOR
OF CERAMIC TILES AND BUILDING PRODUCTS.
PORCELANOSA GROUP LIMITED

PORCELANOSA Grupo

The power of a trademark.

PORCELANOSA Grupo is today a major reference on both the Spanish and international markets. Its consolidated position has been built up on values such as innovation and quality, but especially the trust placed in its large human capital, made up of almost 5,000 skilled professionals, and its concern for its stakeholders and environment.

PORCELANOSA Grupo has almost 40 years' experience and is present in almost 100 countries worldwide. This success is the result of a unique business model based on a strong corporate strategy. Today, the Group's eight companies offer a vast selection of products ranging from kitchen and bathroom equipment to state-of-the-art building solutions for contemporary architecture.

Il potere di un marchio.

Il gruppo PORCELANOSA è oggi una società di riferimento nel mercato nazionale ed internazionale, fondata su valori come innovazione e qualità ma soprattutto basata sulla fiducia riposta nell'esteso comparto di risorse umane, quasi 5000 persone, e nell'attenzione ai valori sociali.

Con quasi 40 anni di esperienza, il Gruppo PORCELANOSA è presente in circa 100 paesi nel mondo, grazie a un modello di business irripetibile sul quale si appoggia una forte strategia imprenditoriale. Le otto società del Gruppo offrono un'estesa gamma di prodotti che comprendono non solo attrezzature per cucina o bagno ma anche soluzioni costruttive avanzate per l'architettura contemporanea.

Сила бренда

Группа PORCELANOSA сегодня пользуется большим авторитетом как на испанском, так и на международном рынке. Пункта компании основаны на таких ценностях, как инновационное развитие, качество, тесное сотрудничество с партнерами, забота об окружающей среде и, что самое главное, на доверии к ее сотрудникам — в группе работает около 5000 высококвалифицированных специалистов.

Группа PORCELANOSA обладает почти 40-летним опытом и представлена без малого в 100 странах. Такой успех — результат применения уникальной бизнес-модели, в основе которой лежит сильная корпоративная стратегия. Сегодня восемь компаний Группы предлагают широкий ассортимент продукции: от кухонного и сантехнического оборудования до самых передовых разработок для современных архитектурных решений.

Our philosophy.

GAMADecOR was founded in 1987 to produce top quality bathroom and kitchen furniture based on concepts of advanced design and technology. Based in Villarreal (Castellón), the company's facilities, which exceed 135,000 m², are equipped with the very latest technology. We currently export to over fifty countries on all five continents and have our own showrooms in Spain, France, the UK, USA, Mexico, Italy and Portugal.

La nostra filosofia.

GAMADecOR nasce del 1987 con l'obiettivo di offrire prodotti di alta qualità, tecnologia e design innovativo nella fabbricazione di mobili da bagno e cucina. Situata a Villarreal (Castellón), i nostri stabilimenti sono dotati delle più recenti soluzioni tecnologiche e occupano una superficie superiore a 135.000 m². Attualmente esportiamo i nostri prodotti in più di cinquanta paesi dei cinque continenti con negozi di proprietà in Spagna, Francia, Regno Unito, Stati Uniti, Messico, Italia e Portogallo.

Наша философия

Компания GAMADecOR была основана в 1987 году как предприятие по производству высококачественной мебели для ванных комнаты и кухни на основе концепций современного дизайна и передовых технологий. Предприятия компаний в городе Вильярреале (провинция Кастильон) расположены на площади свыше 135.000 м² и оснащены новейшим оборудованием. В настоящее время мы осуществляем экспортные поставки более чем в 50 стран на 5 континентах. У нас есть собственные демонстрационные залы в Испании, Франции, Великобритании, США, Мексике, Италии и Португалии.

The series, characterized by the grooved wood veneer front, allows multiple design combinations, thanks to the possibility of covering the front with XTONE porcelain tiles. The variety of designs helps to adapt to the dimensions of the bathroom and the needs of each user, providing lightness and increasing the feeling of spaciousness. This type of modules, which can be installed independently from the washbasin cabinet, allow a customized configuration, achieving a modern and functional design.

La serie, caratterizzata dall'anta impiallacciata in legno scanalato, consente molteplici combinazioni progettuali, grazie alla possibilità di rivestire il frontale con gres porcellanato XTONE. La varietà di design lo aiuta ad adattarsi alle dimensioni del bagno e alle esigenze di ogni utente, fornendo leggerezza e aumentando la sensazione di spaziosità. Questa tipologia di modulo, installabile indipendentemente dal mobile sottolavello, consente una configurazione personalizzata per ottenere un design moderno e funzionale.

Серия, характеризующаяся рифленой фасадной частью из шпона дерева, позволяет создавать многочисленные дизайнерские комбинации благодаря возможности облицовки фасадной части керамогранитом XTONE. Разнообразие дизайна помогает адаптироваться к размерам ванной комнаты и потребностям каждого пользователя, обеспечивая легкость и увеличивая ощущение простора. Этот тип модуля, который может быть установлен независимо от раковины, позволяет создать индивидуальную конфигурацию, достигая современного и функционального дизайна.

This is a highly versatile option, with the possibility of a wall-hung washbasin or a basin fitted on top of the unit to simulate a pedestal in a choice of different sizes. Its auxiliary units can also be wall hung or supported by feet, offering a wide variety of customizable alternatives. As for its materials, it features an Xtone washbasin and a two-drawer bottom unit made of oak and Xtone for keeping the bathroom as neat as a new pin

Mobile da bagno particolarmente versatile in quanto il lavabo può essere sospeso a parete oppure posizionato sulla base, sulla falsariga di un mobile da bagno a forma di piedistallo disponibile in più dimensioni. Anche i moduli del mobile Play possono essere sospesi o posizionati sui piedini, il che rende possibile una vasta gamma di applicazioni nel progettare e configurare il mobile da bagno più adatto a noi. Quanto ai materiali, il mobile da bagno Play vanta un lavabo in Xtone, posto su base di rovere e Xtone con 2 cassetti, perfetta per tenere in ordine il nostro bagno.

Эта мебель для ванной отличается универсальным характером: раковину можно повесить на стене или поставить сверху на другой элемент, который может иметь разные размеры. Дополнительные модули Play также могут быть подвесными или на ножках, что открывает широкие возможности для создания мебели в соответствии с вашими вкусами и потребностями. Умывальная раковина выполнена из материала Xtone, а нижний элемент — из сочетания древесины дуба и Xtone. Внизу есть два ящика, благодаря которым вы сможете поддерживать в ванной идеальный порядок.

stage

Stage is a modern take on vintage bathroom units. It is neo-classical in style, with a mix of materials that include oak and Krion. One of its star features is the Krion countertop, with a skirt with tubular reliefs. It stands on rounded feet typical of 1900s furniture, with two inner drawers to keep the bathroom neat and tidy.

Stage è un mobile da bagno in stile neoclassico rivisitato in chiave moderna il cui design vanta materiali diversi come il rovere e il Krion. Tra le caratteristiche salienti spicca il piano in Krion con pannello laterale e frontale a rilievo e piedini arrotondati sulla falsariga dei mobili del 1900. È munito anche di due cassetti interni per organizzare al meglio il nostro bagno.

В мебели для ванной Stage чувствуется дух ретро, и вместе с тем она создана для современного дома. Это неоклассическая мебель, сочетающая в себе такие разные материалы, как древесина дуба и Krion. В число ее наиболее ярких особенностей входят столешница из материала Krion с рельефными деталями на вертикальных поверхностях и закругленные ножки, напоминающие мебель прошлого века. Здесь есть также два внутренних ящика, благодаря которым можно организованно хранить в ванной комнате различные предметы.

up

A bathroom unit with an unpretentious design, conceived to bring a lightweight feel to its robust structure through slender contours that spark off volumetric interplay. Up also stands out for its exquisite interiors, in keeping with the rest of the design, without relinquishing functionality, given its high storage space and the possibility of additional space in its wall-hung cabinets. Thanks to its varying sizes and wide variety of finishes, this is a unit perfect for bathrooms of all kinds.

Un mobile da bagno dalle linee semplici, che riesce ad alleggerire questo design robusto giocando con i volumi grazie al contorno sottile. Un design che non trascurava la praticità, dato che questo mobile presenta una grande capacità, che si può aumentare con gli armadi a parete. Un mobile che si inserisce perfettamente in qualsiasi tipo di bagno grazie alle dimensioni diverse e alla gran varietà di finiture, oltre agli interni molto curati alla pari di tutto il mobile.

Тумба для ванной комнаты с лаконичными линиями, в которой достигается необычная для подобных предметов мебели легкость, при этом утонченные контуры создают особую игру объемов. Дизайн идет здесь рука об руку с практичностью: в тумбе предусмотрено много места для хранения. Кроме того, к ней можно добавить подходящие настенные шкафы. Благодаря различным размерным вариантам и видам отделки эта мебель органично впишется в ванную комнату любого типа. Внутренняя часть тщательно продумана и созвучна общему виду изделия.

blind

Blind is a bathroom furniture that bets on tradition and simplicity, obtaining a unique bathroom vanity; it includes a sliding system door, reminiscent of furniture from the 30s and 40s but with a totally reinvented aesthetic, thanks to the minimalism in all its design.

Blind è un mobile bagno che punta sulla tradizione e sulla semplicità; caratterizzato da una apertura con persiana scorrevole, che rievoca gli arredi degli anni 30-40, ma con un'estetica totalmente rivisitata mantenendo il design minimale.

Blind - это мебель для ванной комнаты, которая делает ставку на традиционность и простоту. Приобретая уникальный шкаф для ванной комнаты, в качестве двери была установлена раздвижная система жалюзи, напоминающая мебель 30-х - 40-х годов, но с эстетическим подходом, полностью обновленным благодаря минимализму во всем ее дизайне.

side

Side is an absolutely symmetrical bathroom unit, conspicuous for its simplicity and excellence, with an innovative lateral drawer pull. The unit can be made to measure in any size and it comes in a wide variety of finishes (including lacquer, wood and laminate finishes). This ensures a variety of totally different designs able to fit in with bathrooms of all kinds, where it is all set to become a star feature.

Il mobile da bagno Side è perfettamente simmetrico e mira all'eccellenza della semplicità, con un design innovativo per quanto riguarda la maniglia spostata sul lato. Side può essere personalizzato in qualsiasi misura, ottenendo un arredo completamente diverso che si adatta a ogni tipo di bagno, diventandone l'elemento principale; è proposto con una grande assortimento di finiture tra lacca, legno e laminato.

Мебель для ванной комнаты Side отличается идеальной симметрией, все в ней стремится к совершенству и лаконичности. Ручка имеет новаторский дизайн: она расположена с боковой стороны. Side можно персонализировать по любым меркам, создавая очень разные варианты для каждого типа ванной, причем эта мебель всегда будет в главной роли. Имеется много возможностей для отделки, включая блестящий лак, дерево и ламинат.

mertens

mertens

Mertens is a bathroom unit made up of a scratch and smudge-proof wall-hung glass countertop, with an oak bevel-edged underframe to conceal the wall fixtures, plus wall-hung units for added storage capacity and a mirror with storage space behind the glass.

Mertens è un mobile da bagno che presenta un top sospeso in vetro, con trattamento antigraffio e antimpronta, rifinito nella parte inferiore con un telaio bisellato in rovere che nasconde le staffe di supporto a parete, mentre i moduli sospesi e lo specchio - che cela lo spazio interno per riporre oggetti - dotano l'insieme di una grande capacità di stoccaggio.

Mertens — это мебель для ванной комнаты, включающая подвесную стеклянную столешницу с обработкой против царапин и следов пальцев. Внизу столешница имеет дубовую раму со скошенной кромкой, скрывающую крепежные детали, с помощью которых мебель держится на стене. Другие элементы — подвесные модули для хранения различных предметов и зеркало с потайным внутренним пространством, куда тоже можно складывать разные вещи.

A basin unit made up of an aluminium sheet, curved to form raised sides, into which a granite washbasin has been fitted. This has been shaped using “folding” technology to fit neatly into the curved sheet of metal and ensure a continuous veined granite pattern. Aluminium, lacquered with black epoxy paint, and Portobello granite were chosen as the finishes for the unit.

Accompanying it is a wall-hung unit with a drawer, covered in a rustic-look natural oak veneer.

The series is rounded off with a matching round mirror with an aluminium frame, featuring a shelf that rests inside the frame and integrated lighting.

Insieme composto da una lamiera in alluminio dalla forma a canale e da un lavabo in granito naturale realizzato con la tecnologia “Folding” per poterlo inserire nel vano della lamiera curva e mettere in rilievo la venatura del materiale.

Per questo insieme sono state selezionate le finiture laccate con vernice epossidica in nero per l’alluminio e Portobello per il granito.

Il modulo ausiliario che completa questa serie è un modulo sospeso con un cassetto, realizzato in impiallacciato di rovere naturale effetto rustico.

Questa serie si completa con uno specchio rotondo coordinato al resto dell’arredo, con un ripiano appoggiato all’interno della cornice in alluminio e l’illuminazione integrata nello specchio.

Комплект состоит из алюминиевого листа в форме канала и присоединенной к нему умывальной раковины, изготовленной из натурального гранита с использованием технологии фолдинга. Эта технология позволяет адаптировать раковину к внутренней поверхности изогнутого листа и сохранить сплошной рисунок прожилок.

Для этого комплекта были выбраны такие виды отделки, как алюминий, лакированный черной эпоксидной краской, и гранит Портобелло.

Серия имеет дополнительный подвесной модуль с одним ящиком, изготовленный из натурального дубового шпона в стиле рустик.

Завершает серию зеркало в круглой алюминиевой раме, подходящее по тону к остальным изделиям. Внутри рамы имеется полка, а кроме того, в зеркало встроен светильник.

A washbasin unit with a carved oak veneer finish to give it a rustic appearance.

This is a compact unit, featuring two drawers with a Metal laminate lining and Nadir texture. Visually it stands out for two reasons: firstly, for its slightly sunken fronts, with a linear metal handle that juts out so that it is flush with the sides and countertop; and, secondly, because its side panels and wood veneer base are assembled to each other and to the countertop with mitre joints to create a solid ensemble.

The stone countertop can come with an undermount washbasin (the Sotto Box model) or one made of stone.

Accompanying it is a mirror with a frame in a glossy chrome finish.

Mobile da bagno prodotto in impiallacciato di rovere naturale lavorato, che conferisce un effetto rustico. Si tratta di un mobile compatto con due cassetti e finitura interna in laminato Metal con texture Nadir. Il mobile è caratterizzato da due aspetti. Da un lato, i frontali leggermente rientranti e la maniglia realizzata con l'asta orizzontale metallica che sporge dai frontali per andare a filo con le fiancate e il top. Dall'altro, i pannelli laterali e la base in impiallacciato di legno sono uniti tra di loro e al top tramite tagli angolati, ottenendo così un unico blocco continuo. Il top è in pietra naturale e vi si può inserire un lavabo sottopiano in ceramica (Sotto Box) o realizzato nella stessa pietra naturale. La composizione è corredata dallo specchio dalla cornice con finitura cromata lucida.

Консоль для ванной комнаты, изготовленная из обработанного натурального дубового шпона, который придает композиции эффект стиля рустик.

Компактная консоль имеет два ящика с внутренней отделкой из ламината Metal с текстурой Nadir. Внешне эта консоль отличается двумя основными характеристиками. Во-первых, ее передние панели слегка утоплены, а в качестве ручки служит горизонтальная металлическая линия, которая выступает из этих панелей, достигая уровня боковых частей и столешницы. Во-вторых, боковые панели и основа из деревянного шпона соединяются под углом между собой и со столешницей, образуя единый сплошной блок.

Столешница сделана из натурального камня и может включать встраиваемую снизу умывальную раковину: керамическую (Sotto Box) или изготовленную из того же натурального камня.

Композиция дополняется зеркалом в раме с блестящей хромированной отделкой.

A washbasin unit made up of an outer tubular aluminium framework in a Metal finish. This holds a stone washbasin and carved wood veneer unit. This combination of carved wood and stone gives it a Vintage appearance.

There are three possible options in this series: a washbasin unit featuring two drawers, one with a top drawer and a lower shelf, and a third with a shelf at the bottom. It also comes in four different widths: 60, 90 and 120.

The drawers have a Metal laminate lining and Nadir texture.

Rounding it all off is a mirror with the same aluminium surround as the frame of the washbasin unit.

Mobile di bagno composto da una struttura esterna con profilo in alluminio a sezione quadrata con finitura Metal, che ospita il lavabo prodotto in pietra naturale e il mobile, in impiallacciato in legno naturale lavorato. Con l'abbinamento del legno lavorato e della pietra naturale si ottiene un aspetto vintage. Questa serie presenta tre versioni di mobile: con due cassetti oppure con cassetto superiore e ripiano nella parte inferiore e infine con un ripiano nella parte inferiore. Sono disponibili quattro misure da 60, 90 e 120. L'interno del cassetto presenta la finitura in laminato Metal con texture Nadir. La composizione è completata dagli specchi con la cornice realizzata con lo stesso profilo in alluminio che caratterizza il mobile.

Консоль для ванной комнаты включает наружную конструкцию с алюминиевым профилем квадратного сечения, с отделкой Metal, а также встроенную умывальную раковину из натурального камня и компоненты из обработанного натурального деревянного шпона. Такая комбинация обработанного дерева и натурального камня придает всей композиции винтажный вид.

Эта серия допускает три возможных варианта на выбор: один с двумя ящиками, другой с верхним ящиком и полкой в нижней части, третий с полкой в нижней части. Кроме того, имеется четыре размера по ширине: 60, 90 и 120 см.

Внутри ящик отделан ламинатом Metal с текстурой Nadir.

Композиция дополнена зеркалами, рама для которых изготавливается из того же алюминиевого профиля, характерного для всей композиции.

icon

Icon is a bathroom unit with a natural oak wood strip veneer, specially treated to bring out the depth of the wood grain.

The drawer features an integrated J-shaped pull machined in the front, and the sides come in an exclusive coloured finish, specially created for Gamadecor. The accessories and mirror are made of aluminium and come in the same finish as the drawer sides.

Il mobile Icon è realizzato in impiallacciato di rovere naturale a listoni, sottoposto a un processo supplementare di lavorazione per donare una maggiore intensità alla profondità delle venature.

Il cassetto presenta la maniglia integrata e ricavata nel frontale con profilo a J.

I lati del cassetto sono finiti con un colore esclusivo per Gamadecor.

Gli accessori e lo specchio sono realizzati in alluminio e nella stessa finitura della parte laterale del cassetto.

Мебель Icon изготовлена из полос натурального дубового шпона, прошедшего дополнительную обработку, которая подчеркивает глубину жилок.

У ящика нет ручки в традиционном понимании этого слова: она встроена в переднюю панель в виде J-образного профиля.

Отделка боковых частей ящика имеет эксклюзивную расцветку, выполненную для Gamadecor.

Аксессуары и зеркало изготовлены из алюминия и отделаны так же, как и боковая часть ящика.

leaf

Leaf bath furniture. The naturalness and simplicity are almost extreme with its mitred edges offering lightness and levity to the design. We must emphasize the dark side strip coming from the higher plane and going down through the vanity front composing the handle. The pure and minimalist aesthetics of the vanity set continues in the worktop with an integrated basin in its surface. It is possible due to the versatility, adaptability and capacity of the krion.

The hardware used in the Leaf vanity drawers has a unique finish exclusively designed for Gamadecor. Its global opening system allows opening its broad drawers in a homogeneous way by pulling only one of the sides.

Mobile da bagno Leaf. Naturalezza e semplicità nella loro massima espressione grazie agli angoli smussati che conferiscono leggerezza e lievità al design. Si distingue la fascia laterale scura che parte dal piano superiore e si abbassa passando per il frontale del mobile formando la maniglia. L'estetica pura e minimalista del gruppo del mobile da bagno continua nel top con lavabo integrato. Tutto questo è reso possibile dalla versatilità e adattabilità del Krion.

L'interno dei cassetti usati nei cassetti del mobile da bagno Leaf hanno una finitura esclusiva e unica disegnata da Gamadecor. Il sistema di apertura globale permette di aprire gli ampi cassetti in modo omogeneo tirando solo uno dei lati.

Мебель Leaf для ванной комнаты. Удивительная естественность и простота линий, достигаемые за счет скошенных граней. Мебель кажется легкой и невесомой. Обратите внимание на темную полосу сбоку, которая идет от верха до самого низа тумбы, обрамляя ручку. Минималистская эстетика тумбы распространяется и на столешницу, в которую встроена раковина. Такое решение стало возможно благодаря универсальности, гибкости и прочности криона.

Фурнитура тумб Leaf уникальна. Ее дизайн разработан специально для компании Gamadecor. Система полного открывания позволяет открывать широкие выдвигаемые ящики, потянув только за одну сторону.

Modular bathroom cabinet with wide variety of options both in modules and in finishes. The design of the set is characterized by its horizontal handle that is integrated throughout all the modules, sides, and tops with recessing, the final thickness of which is 8 mm, which gives the DESS series a lightweight appearance. Similarly, the DESS washbasin with Gelcoat finish, also has this thickness reduction at the edges in order to follow this lightweight line. The top modules, mirrors, and shelves, are made from aluminum frames with stainless steel or black 100% Metal finish, in the inside of which a back panel, a mirror, or a veneer, lacquer, or mirror door can be installed.

Mobile da bagno modulare con grande varietà di opzioni sia di moduli che di finiture. il disegno del gruppo è caratterizzato dalla maniglia orizzontale integrata lungo tutto il modulo e i fianchi e top con rientranza con spessore finale di 8 mm che conferisce una presenza più leggera e lieve alla serie DESS. Anche il lavabo DESS con finitura Gelcoat, ha uno spessore ridotto nei bordi per continuare la leggerezza della linea. I moduli pensile, gli specchi e i ripiani hanno telai in alluminio in finitura acciaio inox o nero sabbato 100% che possono ospitare un pannello posteriore, uno specchio o un'anta impiattata, laccato o specchio.

Модульный шкаф для ванной комнаты. Разнообразные варианты отделки и компоновки модулей. Характерной особенностью дизайна этого комплекта является горизонтальная ручка, встроенная во все модули по боковым и верхним сторонам, имеющая углубление и конечную ширину 8 мм, что придает серии DESS ощущение легкости.

Так же невесомо выглядит и умывальная раковина DESS с отделкой Gelcoat, тоже имеющая характерное уменьшение толщины по кромкам. В оформлении верхних модулей, зеркал и полок используются алюминиевые рамы (цвета нержавеющей стали или полностью черные). Внутри можно установить заднюю панель, зеркало, а также фанерную, зеркальную или покрытую лаком дверцу.

WORKTOPS CICLO

DEPTH 500MM / 19^{5/8}"

Features:

Lacquered or wood countertops for the CICLO bathroom series.
For basin unit modules, we recommend stone or Krion countertops due to their greater resistance to moisture and abrasion.

Caratteristiche:

Top in laccato o legno per serie da bagno CICLO.
Nei moduli base portalavabo si raccomanda di utilizzare top in stone o Krion per una maggiore resistenza all'umidità e all'abrasione.

Особенности:

Лакированные или деревянные столешницы для мебели серии CICLO для ванных комнат.

Для модулей с блоком раковины рекомендуем столешницы из мрамора или материала Krion. Такие столешницы отличаются повышенной стойкостью к воздействию влаги и истиранию.

Unit with mitre-edged panels and fronts, with the mitre cut into the edges acting as a handle and giving it a unique, distinctive design. The series features washbasin units, high units, low units, shelves and mirrors with LED lighting featuring a touch button system. Draw organisation system available, oak veneer containers.

Mobile composto con pannelli e frontali con angoli a smusso. Lo smusso negli angoli serve come maniglia e caratterizza il disegno del mobile. La serie è composta da basi portalavabo, moduli pensili, moduli base, mensole e specchi con illuminazione a led con pulsante touch. Organizer interno ai cassetti formato da contenitori in rovere

Блок со срезанными кромками панелей и торцов. Косой срез кромки служит ручкой и придает всей конструкции оригинальный вид. В серию входят блоки умывальной раковины, высокие блоки, низкие блоки, полки и зеркала со светодиодной подсветкой и системой сенсорной кнопки. Возможна интеграция системы выдвижных ящиков и контейнеров из дубового шпона.

Available in a Nogal Moon or Nogal Frost finish, this bathroom unit stands out for the design of its continuous draw pull, starting in the front of the unit and ending midway along the side. Another fascinating feature is its use of intarsia, with contrasting horizontal and vertical wood grain patterns, lending a revamped vintage air. Corner's interiors are equally worthy of mention, with a mitre-edged drawer and two inner drawers in a finish that contrasts with the exterior, affording ample storage space.

Mobile da bagno realizzato con finitura Nogal Moon o Nogal Frost. Spicca il frontale squadrato con maniglia incorniciata, una maniglia continua che dal frontale del mobile arriva fino a metà fiancata. Questo mobile è caratterizzato anche dal gioco di contrasto delle venature orizzontali e verticali, che conferisce al mobile contemporaneo un tocco di antico. In questo mobile è molto importante anche l'interno, che presenta un cassetto con presa a 45° e 2 cassetti interni con finitura a contrasto con l'esterno e che dispongono della capacità perfetta per riporre tutto quanto occorre.

Tumba per la vasca viene offerta con due tipi di finiture: Nogal Moon e Nogal Frost. La pannello anteriore ha superfici, disposte ad angolo retto — davanti e a lato — con maniglia in forma di rientro. Si distingue particolarmente la combinazione di elementi in legno con venature orizzontali e verticali, che conferisce al mobile un'aria di antichità. È importante anche l'organizzazione dell'interno, con un cassetto con apertura a 45° e 2 cassetti interni con finitura a contrasto con l'esterno, i quali offrono lo spazio sufficiente per conservare tutto ciò che è necessario.

hem

It is a very versatile bathroom cabinet with a large capacity drawer, which has a removable tray that allows us to keep order in our bathroom. It is characterized above all by very thin fronts, which provide a touch of style and distinction, in addition to two totally different finishes such as White and Sugi Black, both very attractive and elegant, perfect to be the centrepiece of any bathroom.

È un mobile da bagno molto versatile e con un cassetto di grande capacità. Il vassoio estraibile al suo interno ci permette di mantenere l'ordine nel nostro bagno. Il suo punto di forza sono le linee raffinate, che gli conferiscono un tocco di stile ed eleganza, oltre alle due finiture Blanco e Sugi Black, attraenti ed eleganti, perfette per essere il punto focale di ogni bagno.

Это очень универсальный шкаф для ванной комнаты с выдвижным ящиком большой емкости, с выдвижным поддоном, который позволяет нам поддерживать порядок в нашей ванной комнате. Отличительной особенностью являются тонкие фасады, которые несут в себе изящный стиль и не похожи на другие, в дополнение к двум совершенно разным видам отделки, таким как Blanco и Sugi Black, оба очень привлекательны и элегантны, идеально подходящие для того, чтобы быть центральным элементом любой ванной комнаты.

tuck

Tuck is a bathroom series made up of a washbasin unit featuring an individual or double drawer and vertical integrated handle, and a mirror whose special design includes an integrated shelf, made of the same material, and door so that objects can be stored inside it.

Serie da bagno formata da un modulo portalavabo con cassetto che può essere singolo o doppio, con maniglia verticale integrata e specchio dal design speciale con ripiano incorporato dello stesso materiale del mobile oppure munito di anta per riporre oggetti all'interno.

Эта серия для ванной комнаты включает модуль, в который устанавливается умывальная раковина, и ящик. Оба элемента могут быть выполнены в одинарном или двойном варианте. Модуль имеет вертикально встроенную ручку и зеркало с особым дизайном. В дополнение к этому — полка из того же материала или дверца, чтобы внутри можно было хранить разные предметы.

Warranty

GAMA-DECOR BATHROOM FURNITURE GUARANTEE (V. 01/2012)

Scope of the Guarantee:

This Manufacturer's Guarantee covers any claims for manufacturing defects affecting Gama-Decor brand furniture that are not visible during installation and which may appear with use or over time, for a period of THREE YEARS from the date of delivery to the first user, except in the case of consumable elements such as light bulbs, pistons, etc., for which Gama-Decor provides a guarantee of ONE YEAR. In the case of bathroom furnitures supplied for developments and building projects, the guarantee period will be calculated from the date on which the furnitures are supplied/certified.

This Guarantee does not cover the normal changes that affect wood, like any natural product, with the passing of time, as well as differences in its tone or grain.

During the period covered by this Guarantee, Gama-Decor reserves the right to modify the technical and design specifications of its products without prior notice. This Guarantee replaces any previous versions of the same.

Guarantee Conditions:

-That the Gama-Decor bathroom furniture has been acquired from a certified distributor.

-That it has not undergone any alterations since it left the factory, and that all of its component features are respected.

-That any claims are not a result of causes beyond the control of Gama-Decor, such as leaks, overly high temperatures, abnormal humidity conditions, incorrect assembly, impacts, abusive or unsuitable use, unsuitable cleaning products, changes in tone due to exposure to sunlight, etc.

-That all recommendations regarding use and maintenance have been respected.

-That the products have not been use, nor displayed for an undefined period in any showrooms, trade fairs or exhibitions, in which case the guarantee period for these articles is 30 DAYS.

Presentation of Claims:

Any fault identified in our products must be notified to the Certified Distributor who supplied or sold our products, or to a certified technical service provider. Any such notification must be made within a reasonable period of time from discovering the fault, in order to avoid any worsening of the situation. In any event, the execution and effective coverage of the guarantee offered for our products will be subject to an inspection carried out by the certified distributor who sold or supplied the products, or the certified provider of the supposedly faulty products.

In the event of Gama-Decor recognising that the affected element is faulty and within the limits of the Guarantee, it will propose either repairing or replacing the same, as applicable.

In these cases, Gama-Decor will provide the Distributor or technical service provider with:

-The materials that have had the original faults or defects repaired.

-New materials with identical characteristics, if Gama-Decor has opted to replace the faulty material, or if the repair is not satisfactory.

-In situations when the material in question is no longer available, it cannot be provided by our supplier, or the supplier has changed its activity, etc, Gama-Decor will offer an alternative solution.

NOTE: The Guarantee document will be applicable without prejudice to the rights of the consumer established by law in each country, as well as the Europe Community regulations.

GAMA-DECOR BATHROOM FURNITURE GUARANTEE (V. 01/2016)

Scope of the Warranty:

This Manufacturer's Warranty covers any claims for manufacturing defects affecting GAMADECOR brand furniture that are not visible during installation and which may appear with use or over time, for a period of TWO YEARS from the date of delivery to the first user, except in the case of consumable elements such as light bulbs, pistons, etc., for which GAMADECOR provides a warranty of ONE YEAR. In the case of bathroom furniture supplied for developments and building projects, the warranty period will be calculated from the date on which the furniture are supplied/certified.

This Warranty does not cover the normal changes that affect wood, like any natural product, with the passing of time, as well as differences in its tone or grain.

During the period covered by this Warranty, GAMADECOR reserves the right to modify the technical and design specifications of its products without prior notice. This Warranty replaces any previous versions of the same.

Warranty Conditions:

- That the GAMADECOR bathroom furniture has been acquired from a certified distributor.
- That it has not undergone any alterations since it left the factory, and that all of its component features are respected.
- That any claims are not a result of causes beyond the control of GAMADECOR, such as leaks, overly high temperatures, abnormal humidity conditions, incorrect assembly, impacts, abusive or unsuitable use, unsuitable cleaning products, changes in tone due to exposure to sunlight, etc.
- That all recommendations regarding use and maintenance have been respected.
- That the products have not been used, nor displayed for an undefined period in any showrooms, trade fairs or exhibitions, in which case the warranty period for these articles is 30 DAYS.

Presentation of Claims:

Any fault identified in our products must be notified to the Certified Distributor who supplied or sold our products, or to a certified technical service provider. Any such notification must be made within a reasonable period of time from discovering the fault, in order to avoid any worsening of the situation. In any event, the execution and effective coverage of the warranty offered for our products will be subject to an inspection carried out by the certified distributor who sold or supplied the products, or the certified provider of the supposedly faulty products.

In the event GAMADECOR recognizes that the affected element is faulty and within the limits of the Warranty, it will propose either repairing or replacing the same, as applicable.

In these cases, GAMADECOR will provide the Distributor or technical service provider with:

- The materials that have had the original faults or defects repaired.
- New materials with identical characteristics, if GAMADECOR has opted to replace the faulty material, or if the repair is not satisfactory.
- In situations when the material in question is no longer available, it cannot be provided by our supplier, or the supplier has changed its activity, etc.

GAMADECOR will offer an alternative solution.

EXCEPT AS EXPRESSLY SET FORTH ABOVE, GAMADECOR MAKES NO WARRANTIES, EXPRESS OR IMPLIED, REGARDING ITS PRODUCTS, AND HEREBY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

To the maximum extent permitted by applicable law, GAMADECOR expressly excludes from this warranty, and will not pay for, any damages, including without limitation direct or indirect, consequential, special or punitive damages. This warranty extends only to the end user and is not transferable.

This warranty gives the end user specific legal rights, and he or she may also have other rights that vary from state to state. GAMADECOR will not be responsible for any statements or representations made in any form that go beyond, are broader than, or are inconsistent with any authorized literature or written specifications furnished by GAMADECOR. Some states do not allow limitations on how long an implied warranty lasts, or on special, incidental, or consequential damages. As a result, some of these limitations may not apply to the end user.

GARANZIA MOBILI DA BAGNO GAMA-DECOR (V. 01/2012)

Validità della Garanzia:

Questa Garanzia del fabbricante copre qualsiasi possibile reclamo in caso di difetti di fabbricazione dei mobili a marchio Gama-Decor, non visibili durante l'installazione e che possano comparire con l'uso e con il passare del tempo per un periodo di TRE ANNI contato a partire dalla data di consegna al primo utente ad eccezione dei beni consumabili quali lampadine, pistoni, ecc... per i quali Gama-Decor offre una garanzia di UN ANNO. Nel caso di mobili forniti in promozione, cantiere, ecc... il periodo di garanzia si conterà a partire dalla data di fornitura/ certificazione degli stessi.

Sono esclusi dalla presente Garanzia i cambiamenti normali che il legno, come qualsiasi altro prodotto naturale, può subire con il passare del tempo quali le differenze di sfumature o venature dello stesso.

Durante la vigenza della presente garanzia, Gama-Decor si riserva la possibilità di modificare, senza previo avviso, le specifiche tecniche e riguardanti il design dei propri prodotti. La presente Garanzia annulla le precedenti versioni della stessa.

Clausole della Garanzia:

-I mobili bagno Gama-Decor devono essere stati acquistati da un Distributore Ufficiale.

-Non devono essere state apportate modifiche una volta usciti i mobili di fabbrica. In ogni caso devono essere rispettate tutte le caratteristiche della composizione.

-Il reclamo non deve essere conseguenza di cause estranee a Gama-Decor, quali ad esempio infiltrazioni di acqua, temperature troppo elevate, condizioni di umidità anormali, difetti nel montaggio, colpi, uso improprio o non previsto, prodotti di pulizia non adeguati, cambi di tonalità dovuti a luce solare, ecc.

-Devono essere rispettate tutte le istruzioni riguardanti l'uso e la manutenzione

-I prodotti non devono essere stati usati o esposti durante un periodo indefinito in qualsiasi tipo di esposizione, dato che il periodo di garanzia di questi articoli è di 30 GIORNI.

Formalizzazione di un reclamo:

Qualsiasi difetto incontrato nei nostri prodotti deve essere notificato al Distributore Ufficiale che ha fornito o venduto gli stessi o a un Centro Assistenza Tecnica Autorizzato. Tale comunicazione deve avvenire entro un periodo di tempo ragionevole dal momento in cui si rileva il difetto per evitare il possibile aggravarsi delle conseguenze dello stesso. In ogni caso, l'esecuzione e l'effettiva copertura della garanzia offerta ai nostri prodotti, è soggetta all'ispezione obbligatoria che il Distributore Ufficiale che ha eseguito la vendita o fornitura, o il Centro di assistenza tecnica devono effettuare sui prodotti indicati come difettosi.

Se Gama-Decor riconosce difettosa la parte interessata ed entro i termini di Garanzia proporrà la riparazione o sostituzione della stessa. In questi casi, Gama-Decor fornirà al Distributore o Centro di assistenza tecnica:

-I materiali riparati dai vizi o difetti originali

-Materiali nuovi con caratteristiche identiche, nel caso in cui Gama-Decor abbia ritenuto di sostituire il materiale difettoso o nel caso in cui la riparazione non fosse soddisfacente.

-Nei casi in cui, per mancanza dei materiali, impossibilità di fornitura da parte del nostro fornitore, cambio di attività del fornitore, ecc., Gama-Decor offrirà una soluzione alternativa.

NOTA: Il documento di garanzia si applica, fatti salvi i diritti dei consumatori ai sensi della legge vigente in ciascun paese, nonché secondo le disposizioni della normativa comunitaria europea.

Гарантия

GARANTIE MEUBLE DE SALLE DE BAINS GAMA-DECOR (V. 01/2012)

Границы обязательств

Данная гарантия производителя распространяется на любые претензии, возникшие в связи с производственными дефектами, обнаруженными в мебели марки Gama-Decor, которые не были видны во время установки и которые, возможно, проявились в ходе использования или со временем, и действует в течение ТРИ ГОДА с даты поставки первому пользователю, за исключением расходных элементов, таких как лампочки, поршни и пр., на которые компания Gama-Decor дает гарантию сроком ОДИН ГОД. Если мебель для ванных комнат поставляется для девелоперских проектов или на стадии строительства здания, гарантийный период рассчитывается с даты поставки / сертификации предметов мебели.

Гарантийные обязательства не возникают в случае нормальных изменений, которым древесина как натуральный материал подвержена с течением времени, а также в случае несовпадений в ее оттенках или узоре.

В период действия данной гарантии компания Gama-Decor оставляет за собой право на внесение изменений в технические характеристики и дизайн своей продукции без предварительного уведомления. Данная редакция гарантийных обязательств заменяет все прежде действовавшие редакции.

Условия гарантии

-Мебель Gama-Decor для ванной комнаты должна быть приобретена у сертифицированного дистрибьютора.

-Изделия не подвергались никаким изменениям, с тех пор как покинули завод-изготовитель, все характеристики компонентов мебели учтены.

-Предъявленные претензии не являются результатом причин, находящихся вне сферы контроля Gama-Decor, таких как протечки, сверхвысокие температуры, аномальная влажность, неправильная установка, удары, ненадлежащая эксплуатация, использование неподходящих моющих средств, изменения тона вследствие воздействия солнечных лучей и т. д.

-Все рекомендации по эксплуатации и обслуживанию соблюдены.

-Изделия не использовались и не демонстрировались в течение неопределенного периода времени в демонстрационных залах, на промышленных ярмарках или выставках. В противном случае гарантийный период на такие изделия составляет 30 (тридцать) ДНЕЙ.

Подача претензий

О любом дефекте, обнаруженном в наших изделиях, необходимо уведомить сертифицированного дистрибьютора, который занимается поставками или продажами наших товаров, или сертифицированную службу технической поддержки. Такое уведомление должно быть оформлено в течение разумного периода с момента обнаружения дефекта, чтобы избежать ухудшения ситуации. В любом случае условием выполнения и эффективного покрытия гарантийных обязательств в отношении нашей продукции является проверка, которую проводит сертифицированный дистрибьютор, осуществивший продажу или поставку этой продукции, или сертифицированный поставщик продукции, предположительно имеющей дефекты.

Если компания Gama-Decor подтвердит, что рассматриваемый элемент содержит дефект, на который распространяются гарантийные обязательства, клиенту, в зависимости от обстоятельств, будет предложен ремонт или замена этого элемента.

В этих случаях компания Gama-Decor предоставит дистрибьютору или службе технической поддержки

-материалы с устраненными или исправленными дефектами;

-новые материалы, идентичные по своим характеристикам, если компания Gama-Decor приняла решение заменить дефектный материал или если ремонт является неудовлетворительной мерой;

-если рассматриваемый материал отсутствует и более не может быть предоставлен поставщиком или если поставщик сменил сферу деятельности и пр., компания Gama-Decor предложит альтернативное решение.

ПРИМЕЧАНИЕ Данный гарантийный документ применяется без ограничения прав потребителей, установленных действующим законом каждой страны, а также законодательством Европейского союза.
