MATERIA es todo aquello que ocupa un lugar determinado en el universo. Ni se crea ni se destruye, sólo se transforma. Y cada pieza de este catálogo funciona como elemento transformador del espacio que habita. Lo envuelve, lo define y lo complementa.

Desde el Solid Surface hasta la porcelana, cada colección lleva en su nombre implícita su esencia. La misma que marcará la identidad de cada ambiente y de cada proyecto.

MATERIA is everything staying at a specific place in the universe. It can not be created, either destroyed, it is always on transformation mode. Each piece of this catalogue works as a transforming element of the space where it lives. This one wraps it up, defines and completes each item.

From the Solid Surface to the Porcelain, the name of each collection implies its own essence. The same that will mark the identity of each ambience and each project.
